Raymond Basso, Chief  
Northern New Jersey Site Compliance Section  
US EPA Region II  
26 Federal Plaza  
New York, NY 10278

24 JUL 1987

Dear Mr. Basso:

SUBJECT: ARARs for M & T Delisa, SCP - Carlstadt

In response to your letter dated June 24, 1987, regarding the above referenced subject we offer the following comments;

- 1) The RI/FS for SCP - Carlstadt has not yet begun.
- 2) The Supplementary Remedial Investigation for M & T Delisa has not yet been completed. EPA's consultant has recommended additional work for the Scope of Work and EPA (in conjunction with NJDEP) has yet to decide on this issue.
- 3) Due to the facts identified in 1 and 2 above, the general set of ARARs previously identified by NJDEP should be used as N.J. ARARs.

These ARARs include:

- a. Those referenced in the February 19, 1987 letter from John Gaston to Steven Luftig (see Attachment A).
- b. Those given to EPA by Paul Kurisko of NJDEP on May 7, 1987 (see Attachment B).
- c. Those given to EPA by Dr. Merry Morris on June 17, 1987 (see Attachment C).
- d. Those items on Attachment D (which have been identified by this Bureau as potentially applicable relevant and appropriate). These documents are attached for your information.

Until site-specific data has been generated for these sites (or any other sites at similar stages of the RI/RS process), we are unable to provide more specific ARARs for air, soil or groundwater quality. If you have any additional questions, please call Melinda Dower at (609) 633-0701.

Sincerely,

A handwritten signature in cursive script, appearing to read "Karen Jentis".

Karen Jentis, Chief  
Bureau of Case Management
